Professional summary

Full-stack software engineer experienced in building scalable web applications using React, Node.js, Java/Spring, and SQL databases. Skilled in API development, backend systems, and cloud deployment, with experience delivering software solutions and any other assistance related to web-development projects.

Education

ACADEMIES AUSTRALASIA

Certificate IV in Information Technology

Melbourne, Australia

2023 - 2024

UNIVERSIDADE CRUZEIRO DO SUL

Associate of Applied Science in Systems Analysis & Development

Curitiba, Brasil

2021 - 2023

Experience

CHAPADEVS

Full-Stack Software Engineer (AI & Cloud Platforms)

Riverside, New Jersey

Jul 2025 - Present

- Translated client requirements into scalable architectures and AI solutions.
- Built an AI web platform using **GCP + Vertex AI** to generate automated website previews.
- Developed a full-stack **CRM (React, Node.js)** for project tracking and client management.
- End-to-end delivery: architecture, deployment, domain migrations, and secure hosting.

REVATURE

Associate Software Engineer

United States

Mar 2025 – Aug 2025

- Chosen for an intensive 4-month training program in **Java Enterprise** development
- Completed 100+ coding challenges and 10+ graded technical assessments.
- Built full stack systems using **Java, Spring Boot, Maven**, and **SQL**.
- Designed relational databases and implemented JDBC integrations.

DIREÇÃO MARCAS & PATENTES

PHP Developer

Curitiba, Brasil

Jun 2022 - Jun 2023

- Developed full stack internal system using **PHP** and **JavaScript** libraries.
- Built and integrated APIs connecting internal tools with third-party platforms.
- Automated manual workflows, improving operational efficiency.
- Converted business requirements into scalable software features.

ARCA SOLUTION

Web-Development Intern

Curitiba, Brasil

Jul 2021 - Jan 2022

- Tested **REST APIs** with Postman to ensure reliability and uptime.
 - Documented system behavior and edge cases for engineering teams.
 - Deployed production features improving system stability and release speed.
 - Automated dataset processing using **Python** (Pandas).
-

Skills

- AWS EC2 • Spring Boot • Docker • Google GCP • Git • GitHub • Java • JavaScript • MongoDB • MySQL • NodeJS
- PHP • Postman • React • Vite • Tailwind CSS • Vertex AI • Ubuntu • WSL • Virtual Box • Security Best Practices
- Customer Relationship • Agile Methodology • English (fluent) • Portuguese (fluent) • Spanish (advanced)
